

SUMATRA BLUE BATAK TARBARITA- PEABERRY

This is a peaberry preparation of the Blue Batak Lintong-area coffee.

Lintong coffees are from Sumatra, the island that is politically and geographically part of Indonesia. Lintong Nihota is the town that has become synonymous with the entire southern part of Lake Toba area.

Lake Toba defines the landscape of the area, the largest volcanic crater lake in the world, and the result of the largest volcanic event on earth in the last 25 million years! It is huge, and the coffees from the north and eastern shores are quite different from the Lintong coffees. Lintong coffees are farmed by the Batak peoples that are the indigenous tribe that works the coffee in this area. The top grade, specially-prepared Lintong coffees are labeled as Blue Batak in honor of the Toba Batak people.

Melon, cocoa, honey-hickory

Processing: Wet hulled

Varietal(s): Ateng
